The lists above are accurate to the best of our knowledge. However, it is not unusual for carriers to create limited network plans which restrict patients to a very limited set of providers or other plans that might impact in-network access to TLC. If you are on one of these plans, TLC The Littleton Clinic may be out of network even though we are contracted with your carrier. **It is the patient's responsibility to confirm with their carrier whether our clinic is in or out of network. If you don't see your plan listed above or have any reason to doubt our network status, please verify with your carrier.**

Out of network patients will be billed \$400/hr for office visits, charged in 5 min increments, rounded up to the next 5 minute increment. Procedures such as joint injections, including PRP and stem cells, will be charged according to a separate price list. Please feel free to ask about the cost prior to receiving these procedures.
